DISCUSSION

25X1

1. The Minutes of the March R&D Subcommittee meeting were read and approved. [REDACTED]

25X1

2. There were no Working Group reports. [REDACTED]

3. Members were asked to have their special security officers certify the clearances of all who will be attending the R&D Subcommittee meeting for their organizations. The minimum clearance level required is Top Secret, SI/TK. This certification should be done on a yearly basis. [REDACTED]

4. [] CIA, mentioned that he will be calling each Working Group Chairman in the near future to arrange a meeting; the purpose of these meetings is to get a feel for where we are going this year and next and to defend and create interest in the important countermeasures areas. After the meeting between [] and the Working Group Chairmen, Dr. Eckman, Chairman of the R&D Subcommittee, would like to talk with each chairman about the direction his Working Group is going and the work they plan to do in each fiscal year. []

5. Dr. Eckman is very interested in the threat area. We have only [] in that area, and Dr. Eckman is concerned that it is not enough money for an effective research effort. [] noted that he and Dr. Eckman would be meeting the next day to discuss the area of micro-mechanics and what could be done in this area. Dr. Eckman is supportive but questions the dollar value. []

6. Mr. Von Stein, Chairman of the Document Working Group, gave each member an R&D Subcommittee Membership Data card. He asked that this card be filled out and returned to him, indicating whether there is any interest in membership on the Document Working Group. []
